### Skills

WordPress, HTML5, CSS3, JavaScript, Adobe Creative Suite, SASS, WHMCS, WooCommerce, Git, Windows & Mac OS, Craft CMS, UX/UI Design, Fluent in Spanish

---

---

### Experience

#### Freelance Web Developer

June 2018 - Current

Engage in various projects, ranging from bug fixes to complete website redesigns. During this time, I have worked directly with CEOs, Marketing Directors and Designers to create websites using HTML, CSS, and JavaScript.

#### Humid Creative / Freelance Web Developer

July 2017 - May 2018, Conshohocken, PA

Developed websites using HTML, CSS and Javascript that were based on the designs provided to me. Fixed issues on websites hosted and maintained by the agency. Edited HTML5 ads and emails.

#### Enter.Net / Lead Web Designer & Developer

February 2015 - May 2017, Allentown, PA

Created websites using WordPress with the Genesis Framework. Customized plugins for clients' needs. Troubleshoot and resolved issues on live websites. Tested and implemented new UX/UI design principles and best practices for future projects. Created multiple e-commerce websites. Used Adobe Photoshop to design website graphics.

---

---

### Education

#### Lehigh Carbon Community College / Computer Science

Fall 2012 - Fall 2013, Allentown, PA

Completed 2 semesters of coursework in Computer Science. Relevant courses include: Intro to Computer & Applications, Database Environment, Data Structures C++.
